

Bosch Car Service Philippines Becomes the Country’s First Independent Workshop for Electric and Hybrid Vehicles

Leading the Independent Aftermarket Sector with Full-Service Capabilities for the Electrified Era

Bosch Car Service (BCS) Philippines, a subsidiary of ACMobility, formally marked its role as the country’s first independent aftermarket (IAM) workshop authorized to service electric and hybrid vehicles (EV/HEV). Officially announced through a signing ceremony today, this milestone signifies a critical progress in supporting the Philippines’ transition to sustainable mobility and establishing Bosch Car Service as the nation’s premier independent EV service network.

With comprehensive service offerings ranging from basic preventive maintenance to advanced high-voltage (HV) battery diagnostics and repair, Bosch Car Service Philippines sets a new standard of technical excellence within the IAM sector. This development addresses a critical need in the market by providing reliable, trustworthy, and accessible EV servicing options for Filipino consumers and original equipment manufacturers (OEMs).

“As the country continues to embrace electric and hybrid vehicles, dependable servicing becomes a non-negotiable part of the journey,” said Geronimo Campilan, General Manager of Bosch Car Service. “Through this pioneering joint development, ACMobility and Bosch Car Service are expanding access to reliable, expert EV care that supports the growing mobility needs of Filipinos. Together, we are building a stronger, future-ready after-sales ecosystem that gives EV owners greater confidence, convenience, and support

throughout their ownership journey.” **Pioneering the Future of Philippine E-Mobility**

As the first IAM workshop authorized to perform complex maintenance and repair on electric and hybrid vehicles, Bosch Car Service Philippines aims to play a pivotal role in shaping the country’s EV after-sales landscape. Its focus spans three key areas:

- * Enhancing Consumer Confidence: Offering a widespread, dependable service network that alleviates consumer concerns about EV maintenance accessibility.
- * Advancing the IAM Sector: Raising the bar for technical expertise and infrastructure investment, inspiring the entire aftermarket industry to adopt EV-ready standards.
- * Supporting OEM Growth: Collaborating closely with multiple OEM partners to meet their aftersales needs, enabling rapid expansion of EV support services nationwide and accelerating market penetration.

Paulo Duarte, Managing Director of Bosch Philippines, mirrors this mission saying: “Electric mobility brings new expectations for service, safety, and technical capability, and we are committed to meeting that with the highest standards of expertise. Beyond the advanced tools and technology, we are equipping our workshops and technicians with the skills and confidence to stay competitive and future-ready as the EV market grows.”

Providing Filipinos With Bumper-to-Bumper Comprehensive Service Scope

L-R: Geronimo Campilan, Bosch Car Service Philippines General Manager; Paulo Duarte, Robert Bosch Inc. Philippines Managing Director; Steve Gingco, ACMobility Auto Care and Retail Head; Michael Tenganon Jr., Mobility Aftermarket Robert Bosch Inc. Philippines Marketing Manager

This commitment is reflected in the bumper-to-bumper service capabilities now available to Filipino EV and hybrid owners through Bosch Car Service Philippines. The network delivers a full suite of after-sales solutions, including:

- * Basic preventive maintenance and accessory installation
- * Mechanical and electrical diagnostics
- * Air-conditioning servicing
- * High-voltage battery diagnostics, repair,

and conditioning

- * Software updates
- * Warranty servicing for original equipment partners

Upholding Global Standards in EV Service Excellence

To ensure every workshop delivers safe and expert care, all Bosch Car Service technicians undergo rigorous global certification processes, including specialized training in high-volt-

age safety and EV/HEV systems at Bosch’s dedicated training facilities. This ensures continuous upskilling and adherence to the highest standards of service.

This initiative aligns with Bosch’s global philosophy, “Invented for Life,” reaffirming the company’s commitment to providing safe, reliable, and high-quality mobility solutions as the automotive industry evolves.

Petron Introduces New Sprint Scooter Oil —“Subok Sa Bawat Ride”

Petron Corporation, the country’s leading oil company and a trusted name among Filipino motorists, proudly introduces Petron Sprint Scooter Oil, the newest product in its motorcycle engine oil line. Designed specifically for scooter engines, it delivers reliable performance and protection that Filipino riders can count on every day.

Petron Knows You

Across the Philippines, more and more riders are taking to the road on scooters. They are easier to maneuver, making them ideal and practical for navigating traffic or traveling long distances. For millions of Filipinos, owning a scooter is not just about convenience—it represents freedom, independence, and control over their time.

Having your own motorcycle gives you true freedom of mobility. You are no longer limited by the schedule or routes of public transportation. You can leave whenever you need to and go wherever you have to.

Whether it’s heading to work, taking care of your family, running errands, or going for a weekend ride just to unwind, having a scooter makes daily life easier and more flexible. It is not just a ride—it is a tool that helps you move faster and live more independently every day, but it also comes with responsibilities like maintenance, insurance, and fuel costs, but that is all part of taking good care of your motorcycle.

Every day on the road brings its own challenges. From the heavy traffic in major thoroughfares such as C5, EDSA, and Common-

wealth, to unpredictable weather, rough roads, steep climbs, and long, non-stop rides, both riders and their motorcycles are constantly put to the test.

Petron Got You

Petron understands what Filipino riders face every day, that is why Petron Sprint Scooter Oil was developed—to keep every scooter running smoothly and reliably, no matter what the road brings.

We are confident—kumpiyansa tayo—in our Petron Sprint Scooter Oil because:

- Confidence in quality. It has the right viscosity and one of the highest API ratings in the country—even exceeding what scooter engines currently requires.
- Confidence that it is suitable in local road conditions. It performs well in traffic, long rides, uphill roads, and continuous operation under heat or rain.
- Confidence in formulation. It is blended in

PAUSING II, AVP for Service Station MICHAEL D. FLORES, VP for Operations and CTSG JONATHAN DEL ROSARIO.

Petron’s modern facility, one of the top oil blending plants in Southeast Asia, ensuring consistency and reliability.

Built with high quality in mind and priced affordably, it keeps scooters performing at their best every single day.

“We understand the daily challenges of scooter riders—that’s why we developed Petron Sprint Scooter Oil,” said Mr. Virgilio V. Centeno, VP for Industrial Sales. “It was designed to make everyday rides smoother and worry-free, offering high-quality and value-for-money that riders can truly count on.”

Peace of Mind

A truly dependable oil gives riders more than engine protection—it gives them peace of mind. With Petron Sprint Scooter Oil, riders can take on their daily trips with confidence, knowing their scooter will perform smoothly in any condition. Whether it is a morning commute, a delivery route, or a weekend

ride, Petron Sprint ensures consistent performance and protection.

When the engine runs smoothly, every journey becomes easier. Riders can focus on what really matters—getting to their destination safely, comfortably, and without worry.

Subok Sa Bawat Ride

The launch of Petron Sprint Scooter Oil celebrates the everyday Filipino rider who faces the road with confidence and determination.

Proven in daily commutes.

Proven through long hours on the road, under extreme heat or in the rain. Proven in non-stop runs, whether for deliveries or with a passenger. Proven on long rides that stay the course, even on uphill climbs. This is the oil made for the #ScooterNation, for Filipinos who move with confidence, powered by Petron. Unbox the Magic: Win a Lynk & Co 01 PHEV when you join SM Megamall’s “Mega 12 Gifts of Christmas” Raffle Promo

This holiday season, the greatest gift is waiting for you at SM Megamall. In a spectacular partnership celebrating luxury and sustainable innovation, SM Megamall and Lynk & Co Philippines have teamed up to make one lucky shopper’s Christmas extra special.

Under SM Megamall’s “Mega 12 Gifts of Christmas” raffle promo, one lucky shopper stands the chance to drive home the top prize: the much-coveted Lynk & Co 01 PHEV! This revolutionary Plug-in Hybrid Electric Vehicle blends cutting-edge design with powerful sustainability, promising one lucky winner an electrifying start to the new year.

From November 15, 2025, to January 11, 2026, shoppers at SM Megamall can earn raffle entries when they purchase at all stores and restaurants of SM Megamall, including SM Cinema (but excluding SM Supermarket.) A minimum purchase of P3,000 at all participating establishments at SM Megamall earns shoppers one (1) raffle entry, and a chance to drive home this game-changing hybrid electric SUV from Lynk & Co.

The Lynk & Co 01 PHEV represents the future of driving. With plug-in hybrid technology that provides an efficient 47.08km/L of mileage; and Econyl® Nylon seats made from regenerated plas-

tic, it’s eco-friendly without sacrificing style or performance, or its premium sustainable positioning. The Lynk & Co 01 PHEV is on display at the Mega Fashion Hall from November 15, 2025 to January 11, 2026 for those who want to take a closer look at this Swedish designed and engineered marvel. It’s the perfect mix of sophistication and modern automotive design, ideal for those ready to start the new year with a smarter and greener lifestyle.

“We’re thrilled to partner with SM Megamall in redefining what it means to celebrate the holidays,” said Timothy Sytin, Executive Director of United Asia Auto Group, Inc. (UAAIG)—the local distributor of Lynk & Co products and services. The Lynk & Co 01 PHEV isn’t just a car; it’s a statement of how innovation and sustainability can blend seamlessly into everyday life. Through this collaboration, we’re giving Filipinos a chance to experience the future of mobility, wrapped in the warmth and excitement of the holiday season.”

With dazzling lights, heartwarming Christmas melodies, exclusive rewards, and a car that embodies the future, SM Megamall and Lynk & Co Philippines invite everyone to make this season not just merry, magical, and sustainable.
