2026 TGR Philippine Cup heads to Batangas Racing Circuit for Race Weekend 3

Tune in to thrilling races on August 15

Toyota Motor Philippines (TMP)’s premier racing series, the TOYOTA GAZOO Racing Philippine Cup, is bringing the third race weekend of the 2026 season to the iconic Batangas Racing Circuit (BRC) in Rosario, Batangas on August 15. The races are open to the public and admission is FREE.

Race Weekend 3 marks the TGR Philippine Cup’s first visit to BRC, the country’s oldest permanent car racetrack.

Fans can expect thrilling wheel-to-wheel action in this technical racetrack where driver skill will be put to the test. Witness the Super Sporting, Sporting and Legacy classes go head-to-head in the Vios one-make racecar (OMR), and the Tamaraw class in the Tamaraw OMR.

The Vios OMRs will continue to use E20 fuel, a 20% bio-ethanol blend, while the Tamaraw OMRs will continue to be powered by B5 fuel, a 5% coco-biodiesel blend. This initiative to use low-carbon biofuels began in the previous race weekend and aims to support national energy security and the development of biofuel supply chains through multi-stakeholder collaboration including the agricultural sector.

“As a new track for our Vios OMRs and Tamaraw OMRs, BRC will be an exciting challenge for our drivers. Our aim at TOYOTA GAZOO Racing has always been to provide opportunities for racers to push the limits for better and to bring racing closer to different car communities. We hope this new racetrack will reignite the passion of our racers and existing fans, and attract

the interest of people getting into motorsports,” shared TMP Senior Vice President for Marketing Sherwin Chua-Lim.

“We have received positive feedback from the racers on how biodiesel and bioethanol blend fuels perform on extreme conditions, so we are further studying the feasibility of continuing the use of these low-carbon fuels for our succeeding motorsports events. While we continue to face energy security issues in the country, we hope this initiative will result in improved knowledge on the positive benefits of higher biofuel blends for wider use of motorists,” shared TMP First Vice President for Corporate Affairs Josephine Villanueva.

Race Weekend 3 of the 2026 TGR Philippine Cup will also be broadcast live on TOYOTA GAZOO Racing Philippines’ Facebook Page.

The TOYOTA GAZOO Racing Philippine Cup is brought to you by Official Tire Partner GT Radial, Official Engine Oils Partner Petron RevX and Petron Blaze Racing, Official Partner TOYOTA GAZOO Racing Academy and Premier Race Partner DENSO. In cooperation with MOMO Italy, PIAA, Sparco Philippines, Toyota Financial Services Philippines, Autoplus, ROTA, and VARTA. This event is also supported by 3M, AVT, QUAD, myToyota Wallet, OMP, Tuason Racing Sports Unlimited, Brakes by AutoPerformance, GENCHEM, Toyota Tsusho, and Toyota Aisin. Contributing sponsors are Aguila Auto Glass, Kinto One, AutoQuix, HKR Philippine Inc., Technol Eight, and Sun Logistics Technology Inc.

Mitsubishi Motors Philippines Opens New 3S Dealership in Silang, Cavite

Mitsubishi Motors Philippines Corporation (MMPC), in partnership with Mizukawa Motors Corporation (MZM), proudly announces the inauguration of Mitsubishi Motors Silang, a new 3S dealership that further strengthens the brand’s presence in one of the country’s fastest-growing economic corridors.

Located along E. Aguinaldo Highway, Lalaan 1st, Silang, Cavite, Mitsubishi Motors Silang is Mizukawa Motors Corporation’s second dealership in Cavite. The dealership occupies a 1,700-square-meter facility on a 4,000-square-meter property, featuring a six-vehicle showroom and six service bays. Built to provide customers with a complete ownership experience, the facility offers Sales, Service, and Spare Parts operations under one roof.

“The opening of Mitsubishi Motors Silang dealership signifies our commitment to strengthen our network in areas with high growth potential to ensure that our customers have convenient access to Mitsubishi Motors’ latest vehicles and aftersales services,” said Mr. Ritsu Imaeda, President and CEO of MMPC.

From left to right: Max Borromeo (Borromeo Motoring Group President), Frank Eizmendi (Borromeo Motoring Group Chairman), Paolo Borromeo (Mizukawa Motors Corp. President), Edward Carranza (Silang Cavite Municipal Mayor), Ritsu Imaeda (MMPC President & CEO), Toshiaki Kato (MMPC EVP for Sales & Marketing), and Toko Imai (MMPC EVP for Aftersales)

Ford Philippines Boosts Aftersales Experience With Return and Expansion of Ford Family Guarantee

Enhanced suite of service innovations and facilities support commitment to convenience, speed, and long-term customer trust

Ford Philippines today announced the return and expansion of the Ford Family Guarantee, its signature aftersales program designed to give Ford owners a smarter, faster, and more convenient way to care for their vehicles. The renewed program introduces upgraded service innovations that put customer convenience and peace of mind at the center of every Ford ownership journey.

Under Ford Family Guarantee, customers can be assured of comfort, speed, and value when enjoying the many services offered under the program which centers around seamless convenience, service affordability, and uncompromised quality.

Seamless Convenience

With seamless convenience, customers can enjoy a suite of services that are attuned to support their busy lives. Service offerings under this pillar make every customer interaction easy, fast, and personalized – allowing them to get back on the road with minimal disruption to the day. Services include:

- Online Service Booking: With Online Service Booking, customers can conveniently book service appointments anytime and anywhere at their preferred Ford dealership. They will also get instant confirmation of their booking, as well as modify their booking on the system.
- Pickup and Delivery: Pickup and Delivery is available to customers who are interested to have their Ford vehicle serviced without interrupting their day. Participating Ford dealers pick up the vehicle from the customers, service their vehicles, and bring the vehicles back to the customers’ preferred location.
- Express Service: Express Service is available to customers who prefer to have their vehicles serviced in a faster and more efficient way than regular maintenance. The program is designed to be performed within a period of ninety (90) minutes, inclusive of

a car wash.

● Mobile Service Vehicle (MSV): Mobile Service Vehicle is a Ford service facility on-the-go, providing customers with a convenient option to service their vehicles at specific locations while receiving the same quality and expertise of Ford technicians using genuine Ford tools and parts.

● Ford App: With Ford app (formerly FordPass), customers can connect, control, and manage their vehicles remotely, with features such as remote door lock/unlock, remote engine start/stop, vehicle status, vehicle location, among others.

Service Affordability

For service affordability, Ford recognizes that customers are looking for affordable and competitively-priced aftersales products that deliver value for their hard-earned money. Offerings include:

- Scheduled Service Plan (SSP): SSP is a prepaid maintenance package designed to cover a Ford vehicle’s future periodic service requirements. From routine oil changes to air and fuel filter replacements, the SSP covers the essential costs of regular Ford maintenance. This plan protects customers from future price increases and inflation. Additionally, the SSP is fully transferable to subsequent owners, which can enhance the vehicle’s resale value.
- SSP Plus: A first in the industry, SSP Plus offers 3-year service package covering scheduled maintenance from 20,000 to 100,000 kilometers, which owners can buy at any time. This is designed to give eligible customers who missed purchasing the base Scheduled Service Package (SSP) a valuable second chance to enjoy the same trusted maintenance benefits at great value. It is also perfect for existing base SSP customers looking to extend their coverage, ensuring their Ford stays in top condition for longer — all at a locked-in cost that guards against future price increases.

Ford Family Guarantee

The promise behind every drive.

- Service Price Calculator: Available on the Ford Philippines website and on the Online Service Booking platform, the Service Price Calculator is a helpful tool that allows customers to know in advance the estimated Periodic Maintenance Schedule (PMS) service pricing based on the vehicle model and selected Ford dealer prior to the actual service appointment.

Uncompromised Quality

Lastly, uncompromised quality is about recognizing that customers clamor for genuine and easily available Ford parts and the best teams to look after their vehicles. Under this pillar are service facilities such as:

- Ford Parts Distribution Center: Ford has built a bigger Parts Distribution Center to enhance parts availability and accessibility with an area size of 13,000 square meters, twice the size of its previous facility, facilitating same day parts delivery within Metro Manila and nearby Ford dealers and daily de-

livery in other locations.

- Ford Learning Center: A 1,500 square meter learning facility that serves as the central hub for technical and non-technical training among Ford dealer personnel nationwide. The new facility significantly expands Ford’s training capacity and elevates the delivery of training programs and learning modules with state-of-the-art tools, equipment, and globally-aligned processes, ensuring every customer interaction is seamless, professional, and reassuring. “Ford Family Guarantee is a testament to the many ways we’re improving and innovating the aftersales experience – to make our customers feel they’re part of a family that looks after and cares for them throughout their ownership journey. It is our promise that owning a Ford means never having to worry about where, when, or how you get the care your vehicle deserves,” says Pushparaj Muthusamy, director, Ford Customer Service Division, Ford Philippines.
